

Boughton Monchelsea Primary school PE and Sport funding 2015-16

At Boughton Monchelsea we understand the value of sport and physical activity for our pupils and we have a strong history of participation and success in sporting competitions at both local and district level. We want children to develop an enjoyment of sport and physical activity so that it becomes a regular and enjoyable part of their lives.

The Department of Education have provided funding to school to support the provision of PE in schools. At Boughton Monchelsea we have used this funding in the following key areas:

- A. to provide free opportunities for pupils to participate in sports clubs after school
- B. to introduce PE specialists in PE and games lessons for the benefit of children and as professional development for teachers
- C. to promote opportunities for competition between other schools and within our school
